

The whole purpose of a No-Call list is to prevent unsolicited sales calls to those who do not want to receive them. That is why I have a NON-published, UN-listed telephone number. But yet there are those companies that use computers that randomly generate phone numbers in my area. I do NOT want to receive ANY unsolicited sales promotions from ANYONE at any time. Please protect my privacy and don't give in to those that would undermine this. RESIST THE MONEY! and serve the public.
